Mission & Vision

1

Mission

Broadsage champions the open-source way by building transparent, community-driven technologies and transforming distributed open-source stacks -- from agentic AI to cloud infrastructure -- into hardened, enterprise-grade architectures that empower engineering freedom without vendor lock-in.

Vision

"Broad Vision, Sage Guidance -- Open to Everyone."

To be the global catalyst and trusted foundation for open enterprise computing. By uniting radical open-source transparency with calm, authoritative architectural guidance, Broadsage ensures that the future of software engineering remains open, sovereign, and accessible to all.

Our Logo

2

Primary Logo

The primary mark embodies Ollie the Sage Owl, combining high-contrast analytical spectacles with a radiant guidance beacon for all teams.

Always render the mark from original vector sources to maintain absolute sharpness and gradient fidelity across all applications.

The DPE Initiative

Broadsage is a Developer Platform Engineering (DPE) initiative built to deliver panoramic vision and wise guidance, bridging open-source innovation with hardened, resilient enterprise architectures.

All marks, color ratios, and typography specifications in this manual are locked to preserve universal consistency. Never distort, alter, or disassemble these core identity assets.

Open-Source Hardening & Governance

Upstream Innovation -> Enterprise-Grade Resilience

Curating, auditing, and hardening distributed open-source stacks. Eliminating security vulnerabilities and compliance liabilities so enterprises can build freely without vendor lock-in.

Autonomous Agentic Workflows

Intelligent Developer Loops & Multi-Agent Swarms

Embedding autonomous AI review agents, LLM reasoning meshes, and automated migration assistants directly into developer CI/CD pipelines to accelerate engineering velocity.

Unified Telemetry & Lakehouse

Real-Time Developer & System Observability

ClickHouse-powered high-throughput metrics and trace streaming. Tracking DORA metrics, build latencies, and platform health across the entire distributed developer lifecycle.

Paved Roads & Developer Toolchains

Frictionless Self-Service & Local Runtimes

Open-source developer CLI runtimes, standardized project scaffolds, and self-service cloud environments that eliminate cognitive load and establish trusted golden paths for every team.

Stationery & Swag

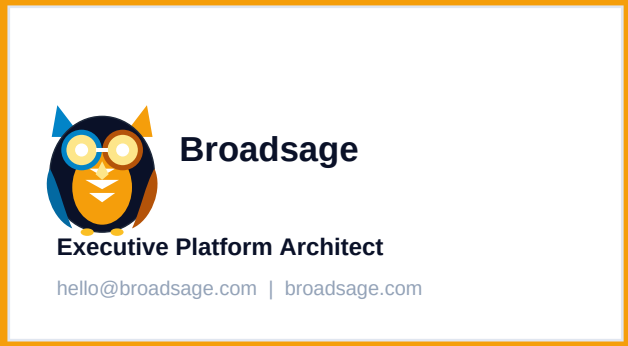

6

Stationery

2026

Broadsage provides comprehensive physical stationery, executive letterheads, and business card standards for global teams.
